

SOURCES AND SINKS OF GREENHOUSE GASES IN TANZANIA

Part 1

- Acknowledgement
- Executive Summary
- Introduction
- Carbon Dioxide Emissions from Fuel Combustion

Part 2

- Non-carbon Dioxide Emissions from Industry (ISIC)
- Non-CO₂ Emissions from Thermal Power Generation

Part 3

- Non-carbon Dioxide Emission from Mobile Sources
- Non-CO₂ Emissions from Household, Commercial and Informal sectors

Part 4

- Fugitive Emissions from Coal Production and Post-production Handling Activities
- Fugitive Emissions from Natural Gaseous Systems
- Greenhouse Gas Emissions from Non-energy industrial process

Part 5

- Estimation of Greenhouse Gases Emissions from the Agricultural sector

Part 6

- Greenhouse Gas Emissions from land use change and forestry
- Emissions from Municipal Solid Waste and Wastewater

Part 7

- Conclusions
- Summary Technical Reporting and Standard IPCC Tabulation
